

Account Note: Society Management User Guide

Empowering Societies with Transparent & Digital Accounting

1. Accessing the Portal

The app offers a secure, dual-method login system.

- **Login Options:** You can sign in using your registered **Email & Password** or via **Mobile OTP**.
 - **Registration:** Members are encouraged to register their mobile numbers to enable the one-touch OTP method.
-

2. The Dashboard (Financial Overview)

Once logged in, the **Dashboard** acts as the central command center for the society.

- **Financial Summary:** Instantly view **Pending Charges**, **Pending Bills**, and the current **Bank Balance**.
 - **Visual Trends:** The pie chart shows the current month's Income vs. Expense ratio, while the bar graph displays the **6-month trend** (e.g., Aug 25 to Feb 26).
-

3. Administrative Management

Administrators can easily manage the lifecycle of a transaction from billing to payment.

A. Creating Charge Orders (Billing)

Instead of manual receipts, admins can generate a **Charge Order** for the entire society in seconds.

- Select the item (e.g., "Monthly Maintenance").
- Click "**Add all Memb Acc**" to apply the fee (e.g., ₹1500) to every flat simultaneously.

B. Recording Expenses (Bills)

When the society pays for services (like Housekeeping or Electricity), the admin logs the bill to maintain a digital audit trail.

- **Digital Storage:** Admins can upload a photo of the physical bill directly to the entry.
-

4. Ledger & Member Accounts

The app maintains a master list of all accounts, categorized by **Expense Accounts (Exp Acc)** and **Member Accounts (Memb Acc)**. This ensures that every credit and debit is mapped to the correct entity.

5. Advanced Reporting & Transparency

Account Note generates automated reports that can be shared during Annual General Meetings (AGM).

- **Expense Report:** An itemized list of every payment made (Electricity, Gardening, Security, etc.).
 - **Pending Status Report:** A "Bucket" report that groups members by how much they owe (e.g., members owing over ₹30,000).
 - **Bank Statement:** A digital mirror of the society's bank transactions, including UPI and IMPS details.
-

6. Summary of Benefits

- **For Members:** View your balance 24/7; no more "lost" paper receipts.
- **For Committee:** Automated collection tracking and easy auditing.
- **For the Society:** Total transparency leads to higher trust and faster collections.
